Children - Our Future

Children are our most precious wealth for the future. And yet they are the most victimised in the world's current turmoil. Millions of children are now under intense hardship due to poverty , wars and environmental calamities. From extreme hunger , diseases , famine , disrupted families , homelessness , abuses and human trafficking to denial of education , health care, and human rights. Millions of children in the world today are phasing into a future of hopelessness and dehumanization.

Children are indeed the future. A generation of children with no access to food and nutrition , proper education and basic needs , the world community is deemed to witness a de-generation of the young.

MyChild International aims to alleviate the plight of the oppressed children. Its main objective is to address the current sufferings of the children in conflict zones and in nations of poverty. It takes the responsibilities of voicing the voiceless children, building hope for the future generation.

MyChild International attends to children of all creeds and nationalities. Children are likened to a white cloth. Of what colour are they to be prepared is in the full hands of their parents , local communities , the governments and the international agencies.

We care children as children. Every single child needs proper upbringing and environment of love and care. The future is in the hands of the current generation to ensure the children are prepared to steer the world for a better and more humane environment.

ABOUT US

The Malaysian Consultative Council of Islamic Organizations (MAPIM) is a non-governmental organization registered under the Registrar of Societies Act of Malaysia in 2012. Its mission is to serve as a consultative forum to address the various issues and challenges faced by the ummah specifically, and humanity at large. Under MAPIM, MyChild was founded to safeguard the welfare of children affected by war, disasters, and orphanhood. The initiative focuses on organizing campaigns and providing support in the form of material aid, education, and emotional care.

Child protection is a global urgent issue. International Resolutions and Protocols have brought up the issue of protection for all children under international law. The mistreatment and victimizing children as collateral damage in war zones cannot be acceptable. The dire situation of children in refugees camps and IDPs are also the rational for why there is a need for civil societies to embark on a high impact initiatives to see to their needs. Children make up less than one third of the global population, but they were 50 per cent of the world's refugees in 2019.

Today, nearly 1 in 3 children living outside their countries of birth are child refugees; for adults, the proportion is less than 1 in 20.

Phylosophy : All child are thrust from Allah and protecting and nurturing them are responsibility of every state and non state actors.

“Wealth and children are the adornments of the life of this world.”
– [Surah Al-Kahf 18 : Verse 46]

“Observe justice in dealing with your children in the same manner in which you expect them to observe justice in being kind and good to you.”

– Prophet Muhammad (PBUH) – Sahih Bukhari.

Objectives:

1. Extend humanitarian assistance to victimised and deprived children.
2. Advocacy for children's protection in war zones.
3. Voicing for the rights of children around the world.
4. Initiate specific projects on education and health care for deprived children.
5. Building a network with international organizations to collaborate on children's rights.

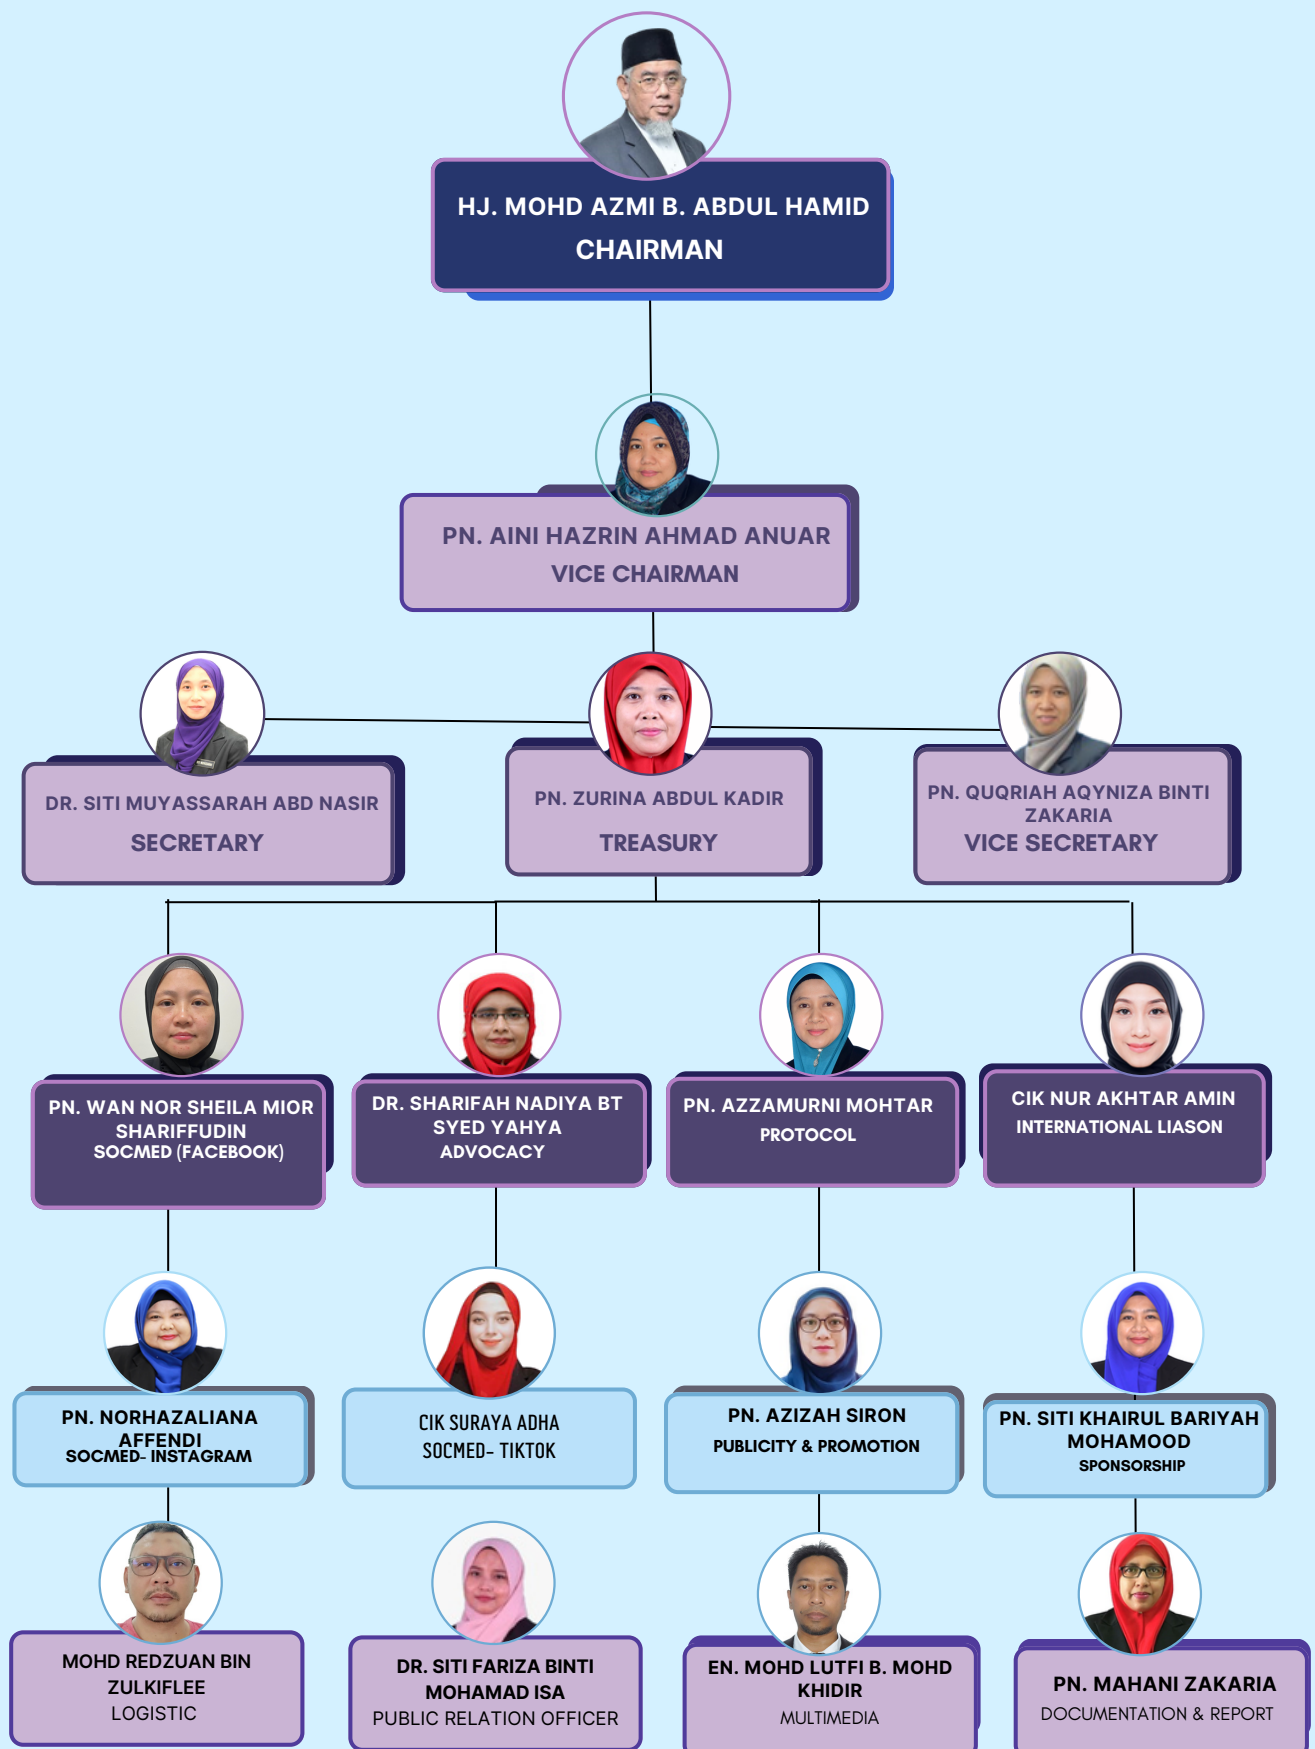

MYCHILD CHARTER

"Every child is my child"

Every child is a trust,
Every child should be loved and be cared,
No child should be denied of a safe shelter,
No child should be denied of childhood,
No child should be denied access to education,
Every child should get enough nourishment ,
Every child must have access to health care,
Every child should be in the safe hands of their parents,
No child should be exposed to violence ,
No child should be abused ,
Every child should be respected and LOVED,
Every child must be protected,
Every child must be given the opportunity to develop their talent.

THE REALITY

75 percent of the world's children experience violence. Violence takes many forms, including physical and emotional abuse, sexual abuse and exploitation, and neglect or deliberate deprivation. Growing up with violence, and the threat of violence, can lead to life-long physical, emotional and mental health problems.

**1 IN 4 VICTIMS OF
MODERN SLAVERY

8 MILLION
ADOLESCENT GIRLS
AGED 15-19 HAVE
EXPERIENCED
SEXUAL ABUSE**

-
- Nearly 720 million school-age children have no legal protection from corporal punishment at school
 - Children living in conflict or emergency situations, such as natural disasters or major pandemics are even more vulnerable to exploitation, abuse and violence. Children living in conflict face the threat of being killed or maimed, falling victim to sexual violence, and being recruited as child soldiers. In many cases, children are specifically targeted.
 - In 2020, the number of international migrants reached 281 million; 36 million of them were children. Among the world's migrants are nearly 34 million refugees and asylum seekers who have been forcibly displaced from their own countries – half of them children.

RATIONAL : CHILD PROTECTION IS A GLOBAL URGENT ISSUE.

International Resolutions and Protocols have brought up the issue of protection for all children under international law.
